# EVENING BULLETIN

3:30 EDITION

Is a Creator of Impressions

There is an irresistible something  
that is getting into the conscience of  
people and that is forcing them to de-  
mand the straight thing on the part of  
everybody with whom they transact  
business. BULLETIN advertisers are  
straight.

ESTABLISHED 1882. No. 4984.

10 PAGES.—HONOLULU, TERRITORY OF HAWAII, FRIDAY, JULY 21, 1911.—10 PAGES.

PRICE 5 CENTS.

## CIVIL STRIFE AGAIN THREATENS PORTUGAL BLUNDER ON JUDICIARY BLDG. PLANS

### Work to do Over Delay Is Costly

#### Departments Left Out Of New Judiciary Building Plans Protest

Because no provision was made for some of the departments in the new plans drawn for the judiciary building, the work has practically to be gone over again and new plans drawn. The cause of the blunder is held to be the public works department, under Superintendent Marston Campbell, which sent the general scheme for the new building down to Architects Ripley & Reynolds.

Meanwhile the opening of bids for the structural steel work has been postponed for a month and a half, from July 31 to September 15. The whole work has been delayed, and Territorial and Federal offices must pay just as much the more money for the rent of outside quarters.

The department of education, the recorder's office and the tax assessor's office were not included in the original plans sent by the public works department to Ripley & Reynolds, it was stated at the Capitol this morning. Architect Ripley said this morning in response to a question that all of the departments provided for in the rough plans sent down by Superintendent Campbell had been provided for in the

finished drawings. The architects submitted their plans some two weeks ago, providing for the four circuit courts, the supreme court and the library. As soon as it was known that the others had not been included, a howl went up. The plans now are being redrawn.

While the plans were being worked over by the architects, Superintendent Campbell was taking his junketing tour on the coast, and came back to rush into the thick of belt-road commission labor. He is now on the island of Hawaii to attend the meeting of the commission there, where he will have a chance to meet E. A. Southworth, the engineer who, according to Mr. Campbell, is too busy to act as consulting engineer for the Hawaii commission on his own island.

The altered plans call for the housing of only three of the courts, but provision is made so that if the fourth wants a room at any time it will be ready for it. The supreme court and the library will still be included, and besides these there will be the department of education, the recorder's office and the tax assessor's office. This means that the completion of the plans must be put back considerably.

### SCENES IN PORTUGAL WHERE REVOLUTION MAY UPSET NEW REPUBLIC

#### LOYALISTS ARE READY TO SWARM OVER SPANISH BORDER AND FIGHT FOR MANUEL

(Associated Press Cable.)  
LISBON, Portugal, July 21.—Revolution is again imminent in Portugal, and this time the new republic is in danger of being overthrown. An invasion of loyalist troops and sympathizers from the Spanish border is expected at any time. The loyalists hope to put ex-King Manuel back on the throne. The government has dispatched troops to the border, but it is feared they can not hold back the loyalist forces.

#### BECKLEY ILL; TO WED AUG. 1

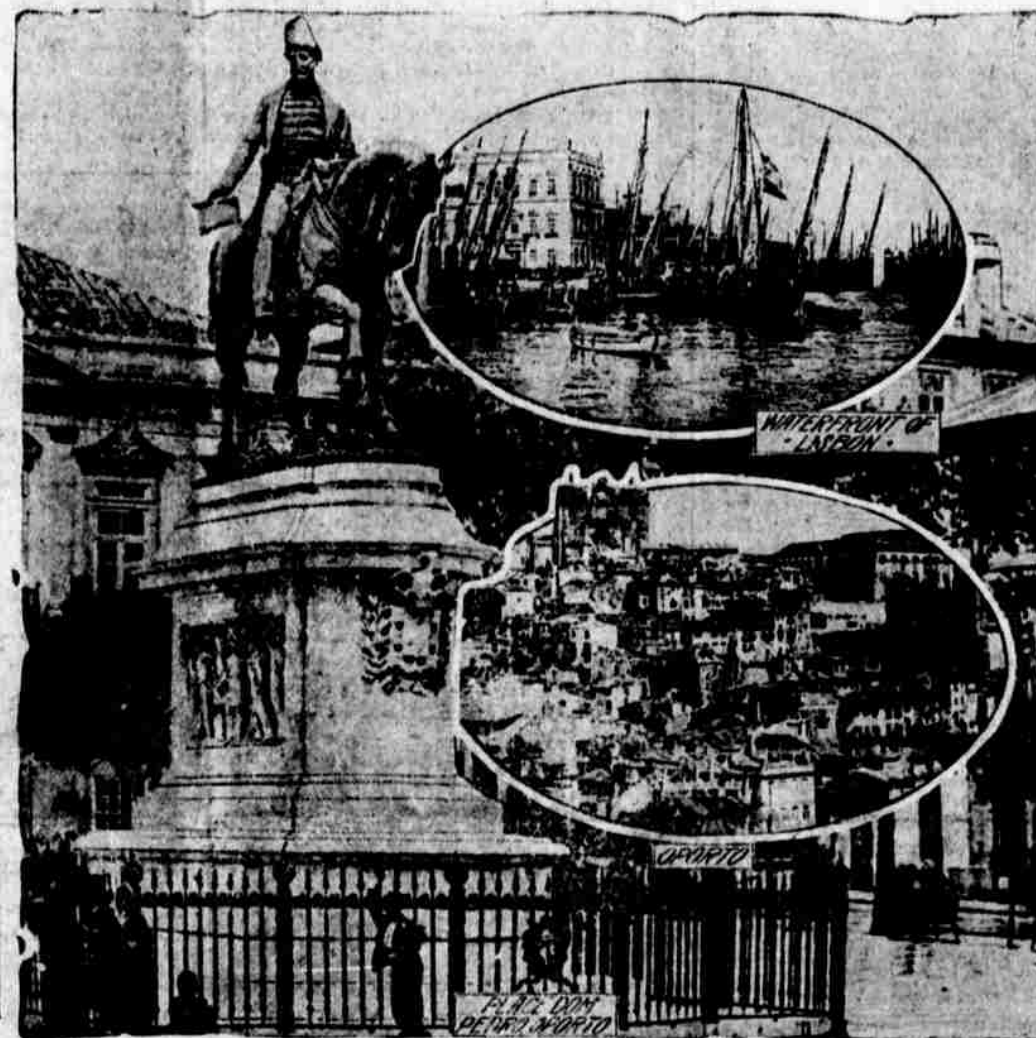

(Special Bulletin Cable.)  
SAN FRANCISCO, Cal., July 21.—The wedding of Miss Beatrice Campbell and George C. Beckley will probably take place here on August 1, despite the fact that the prospective groom has been taken seriously ill and is in a hospital here.

#### MORE PRECAUTIONS AGAINST FRUIT FLY

(Special Bulletin Cable.)  
SAN FRANCISCO, Cal., July 21.—State Horticultural Commissioner Jeffrey is taking radical steps to prevent the introduction into coast ports of the Mediterranean fruit fly from Hawaii.

#### WILL CARRY VETO BILL

(Associated Press Cable.)  
LONDON, Eng., July 21.—King George has promised the Premier to appoint the necessary number of peers to carry the veto bill.

### FEDERAL EXPERT WILL GET FAT SALARY

(Special Bulletin Wire.)  
HILA, July 21.—Chairman A. W. Carter of the Hawaii road commission was authorized at the meeting yesterday to obtain the services of a Federal engineer as a road expert. The salary of the Federal expert will be \$200 a month plus his traveling expenses.

### LARGE PROPERTY HOLDINGS TO WOLTERS

One of the most important deals in downtown real estate made for a long time is being consummated by William Wolters, through which he will have frontage on Fort street above Hotel, on both sides of Union street, on both sides of the Bishop street extension and on Adams lane.

This deal is the acquisition of a fourth interest in the life interest of Mrs. Elizabeth J. Monarrat, who is practically the owner of the piece of property bounded by Union street, Adams lane and the upper boundary of the Oregon block. The consideration involved is not made public, but runs up into many thousands of dollars.

This deal is particularly important in view of the proposed plans for the improvement of this section by the extension of Bishop street and the widening of Hotel street. Property owners in the section, including Mr. Wolters, the Brewer Estate, Mott-Smith and others, are reported to have nearly reached an agreement by which private

### ORDNANCE SHOP FOR FORT RUGER

The largest ordnance shop ever built by the U. S. government will undergo construction shortly at Fort Ruger. This shop will be 72 feet long by 25 feet wide, constructed entirely of reinforced concrete and equipped with the most modern machine drills, gun lathes, rifle borer, riflers, etc., available.

Captain Edwards, who has charge of the concrete work at Ruger, is rushing the framework of the building along, and will have it all set up so that he will be able to start throwing up the walls with the concrete gun in about 10 days.

This "gun," which has proved so successful as a reinforced concrete builder, seems to cause a house, literally speaking, to spring up over night, so it is expected that very little time will be required before the ordnance shop will be ready for the installation of machinery.

This shop will not only repair the guns and carriages of Fort Ruger, but will repair all those on the islands, which is a very unusual thing.

#### REAL ESTATE TRANSACTIONS

Entered for Record July 20, 1911.  
From 10:30 a. m. to 4:30 p. m.  
Lilikani Fern to Geisbilo Otaia.  
En Sing Leong to E. Cott Holborn.  
Benjamin P. Fabian and wife to Lilia Palkin.  
James A. Thompson and wife to A. N. Campbell.  
J. R. McLean and wife to Grace M. Deveraux.  
Guastavo Schuman and wife to Maria L. da Silveira.  
Mine Takiguchi to R. Tanaka.  
Jani Pomroy to L. L. McCandless.  
Frank J. Perry by dep. sh. to Ferdinand Schnack.  
Otto Gertz to F. Schnack.  
Trent Trust Co. Ltd. to Sigurd N. Russell.  
Louis H. Benny to Ralph A. Kearns.  
Entered for Record July 21, 1911.  
From 8:30 a. m. to 10:30 a. m.  
William O. Smith to W. M. Minton.  
William O. Smith to E. A. Douthitt.  
Rel.

### DEMOCRATS BOOM NEWLANDS FOR PRESIDENT

Chief Strength in Fact That  
He is Acceptable to  
W. J. Bryan.

BY C. S. ALBERT.

(Special Bulletin Correspondence.)  
WASHINGTON, D. C., July 21.—A conspicuous Presidential boom has been started for Senator Francis G. Newlands of Nevada. He is a Democrat. The people of California have taken the initiative in starting the boom. The Senator has large interests in that State, being a son-in-law of William Sharon, one of the bonanza kings.

Mr. Newlands is well liked by his associates in the Senate. He was selected as the Progressive candidate for minority leader when Senator Martin was chosen. He has long been an advocate of all such reforms as are calculated to aid Democracy and improve conditions among the masses.

The chief strength of Mr. Newlands at present is that he would be acceptable to William J. Bryan. He was always been a close friend of the Nebraska man, who would doubtless be willing to bequeath his mantle to the man from Nevada if no further use can be found for it by himself.

#### May Annex More Territory.

Strong sentiment is being developed here favorable to the acquisition of Lower California by the United States. The cornerstone of the suggestion is that Arizona would be given a seaport. The desert at the mouth of the Colorado River has been obtained by a syndicate of American capitalists. It is declared that irrigation will make this land a second Egypt. Coolies will be used as laborers because the laws of Mexico permit their importation.

This proposed colonization of Mongolians and the additional fact that Lower California may be seized by the Chinese because of the outrage at Tientsin causes the proposed annexation to be seriously considered. It is believed that before long Mexico will be perfectly willing to sell Lower California for cash and this government will be compelled to pay the price to protect American investors and prevent the

### LA FOLLETTE RENEWS HIS FIGHT ON RECIPROCITY

(Associated Press Cable.)  
WASHINGTON, D. C., July 21.—Senator La Follette of Wisconsin again attacked the proposed reciprocity agreement in a speech today in the Senate, during the course of which he scored the President.

The amendment of Senator Charles E. Townsend of Michigan, providing for international improvement of the St. Lawrence River, was defeated in the Senate.

### HAYTIAN LEADER ILL BUT DIRECTS DEFENSE

(Associated Press Cable.)  
PORT AU PRINCE, Hayti, July 21.—President Simon is here ill, but is directing the defense of the palace. The government troops have been reinforced. The United States gunboat Petrel is here.

### FRENCH AVIATOR SETS TWO NEW RECORDS

(Associated Press Cable.)  
MOURMELON, France, July 21.—Aviator Lorian is an aeroplane today flew 465 miles. He was in the air eleven hours and forty-six minutes. Both distance and time in the air are claimed as records.

### MAY HOLD SHIP FOR PEACE SPEECH

An effort will be made to hold the Japanese liner Chiyu Maru in port until late in the evening of August 15, so that David Starr Jordan, president of Stanford University and one of the foremost advocates of world-peace and arbitration, may make an evening address here on the subject of international peace.

A meeting of representative men was held yesterday at the call of A. Lewis Jr., president of the Men's League, at which committees were appointed to arrange for the welcome of Dr. Jordan and for his address here. A special committee, of which Y. Akai of the Yokohama Specie Bank is chairman, was named to take up with the Toyo Kisen Kaisha management the plan for holding the Chiyu Maru so that the address may be made in the evening. The speech is to be delivered at the Hawaiian Opera House. It promises to be an unusual event. The subject is

### GRAFT AS WELL AS LACK OF SYSTEM IS DECLARATION OF LOW

Graft as well as woeful lack of system in the management of those laborers who were used in Clean-up Day operations in Honolulu, he charged by Supervisor Low in making his verbal as well as written report of the series of investigations carried on regarding a middle which has occupied the time and attention of the Supervisors for some weeks past.

"The whole trouble was due to a lack of system in that there was a most imperfect arrangement before hand, of the forces needed in cleaning up the city by the clean-up committee.

The distribution of the men to the several locations and an assignment of work were matters touched upon in the report made before the board of supervisors at a meeting held at noon today.

#### WOULD PROD GAS COMPANY

The Honolulu Gas Company has found itself in disfavor with the majority of the members of the city and county Board of Supervisors.

In laying pipe for conveying illuminating gas through the city streets, the company is said to have ignored all requirements embodied in existing ordinances.

City and County Engineer Gere told the city fathers at noon today that the gas company was the worst offender ever in the bad manner in which they left the surface of the streets after their forces had completed the laying of pipes.

"We want the chickens killed up," insisted Murray, while the remainder of the members of the board added a fervent second to his recommendation. Instances were cited where the public service corporation had torn up macadamized thoroughfares and following their invasion a bog and quagmire was left as a legacy to indignant property owners.

### MURRAY DISCLAIMS POLITICS BEING PLAYED IN ROAD DEPARTMENT MANAGEMENT

Politics is not being played by the Republican members of the city and county Board of Supervisors. In the matter of taking over the management of the road department, according to a public statement made at noon today by Supervisor Murray, who told the members of the municipal legislative body that he wanted to go on record as contradicting the persistent repetition of statements to this effect made in the columns of a morning paper.

"We want a businesslike administration and, furthermore, we intend to have it," said Murray in addressing the board at the special meeting held today.

"In the transfer of the road department of the city and county engineer, it is the intention to make the engineering branch of the government responsible for all city and county work. Furthermore, that official will be authorized to give instructions to the road supervisor, and it will be his duty to see that such instructions are carried out to the letter. It simply means a centralization of road department work so far as this island is concerned."

Murray addressed his remarks to Mayor Fern, and in so doing further stated that it was expected that the city and county engineer would be held responsible for the actions of his subordinates.

"We will be ready to jump the city engineer should we find that he is not carrying out the instructions given him. All we want is men in positions of trust who will perform the work allotted them."

"The hiring of men or lunas for Honolulu road department will, under the new law, come under the jurisdiction

(Continued on Page 4.)

#### KEIOS PROTEST

The Kelo baseball team has sent an official protest of Wednesday's game to Thomas Treadway, promoter of the special series, through its captain and manager. It is based on Umpire Bower's decision in the eighth inning over Koyama's hit to center.

### OLD CARTER HOME AS PARK SITE

"Sweet Home," the old Carter place on Judd street and Nuuanu avenue, complete, I have no idea, but that a large part of this will be kept as a park," said Mr. Galt this morning. The Oahu Cemetery Association for \$20,000, and at the time the deal was made the general supposition was that it would all be used for cemetery purposes.

J. R. Galt, secretary and treasurer of the Oahu Cemetery Association, said this morning that part of the property, including frontage both on Judd street and Nuuanu avenue, will be kept as a park, further beautified with a wide boulevard through the entrance to the corner and kept permanently as a semi-

public park. "While the plans are not

complete, I have no idea, but that a large part of this will be kept as a park," said Mr. Galt this morning. The Oahu Cemetery Association for \$20,000, and at the time the deal was made the general supposition was that it would all be used for cemetery purposes.
